

## APICS Certified Supply Chain Professional (CSCP) Certification

With the APICS Certified Supply Chain Professional (CSCP) program, you can take your career and organization in a new and exciting direction. Shape your future, align your goals, and distinguish yourself from the competition. In this challenging global marketplace, only the most well-trained, well-educated professionals will be sought after by employers and valued by organizations. Join their ranks today by earning the APICS CSCP designation.

### Who should earn the CSCP designation?

The APICS CSCP designation is for professionals who are interested in increasing their knowledge and expertise in the field of global supply chain management. This designation is ideal for you and your organization if you are:

- Interested in more depth of knowledge and understanding in the areas of supplier and customer relations, international trade, the use of information technology to enable the supply chain, and physical logistics
- A professional who is consulting or facilitating supply chain functions
- A professional who is interested in increasing knowledge and expertise in the field of global supply chain management
- A professional who is consulting or facilitating supply chain functions or working with enterprise resources planning (ERP) systems
- An employer wanting to create a common standard of understanding, vocabulary, resources, and frameworks within your company to address your supply chain challenges and opportunities

### The Course:

The NEWLY UPDATED course learning System® consists of five comprehensive books, sample questions, and extensive references plus an interactive web-based component. The three modules are:

- APICS Fundamentals of Supply Chain Management
- APICS Supply Chain Strategy, Design, and Compliance
- APICS Implementation and Operations

### The Results:

"The APICS CSCP program is very useful in designing, introducing, and implementing cost reduction programs. By looking beyond just the costs related to procurement and reviewing all real costs within the total supply chain, I've gained tremendous insights that often resulted in impressive opportunities to reduce various costs in the entire supply chain."

John Van Veen, CSCP

Procurement Consultant
